EXPERIENCE

Software Developer May 2024 - Present
Mirana Toys Private Limited *Pune, MH*

- I am working on Miranatoys E-Commerce for (B to B and B to C) clients and Mobile App Consoles / 2D Games as a frontend developer using React JS, Next JS, React Native and Phaser Link - <https://miranatoys.com>, <https://play.google.com/store/search?q=mirana+appc=appshl=en>

Software Developer Feb 2023 - May 2024
Explarity Solutions *Pune, MH*

- I am working on Diamond Certified Resources and Value Star as well as Flutter Love as a frontend developer using React JS, Next JS, and React Native, Jest Link - <https://diamondcertified.org/>, <https://aflutterlove.com/>

PROJECTS

Optimind A AI-powered app that lets users ask a single question and instantly receive responses from multiple AI models. I built it to solve the hassle of querying each model separately, enabling efficient comparison and better, diverse insights in one place. App download Link <https://optimind-two.vercel.app/>

Candy Catcher A fun and fast-paced 2D arcade game built with Phaser, Next.js, and CSS, where players collect as many candies as possible within 30 seconds to achieve high scores. The game is seamlessly integrated and runs inside a React Native mobile application, delivering smooth and engaging gameplay. App download Link <https://expo.dev/accounts/dev.asitsingh/>

Cricket Academy (Limitleass Cricket Academy) It is a modern, SEO-friendly website built using Next.js for people who want to join or learn more about the Limitless Cricket Academy. The site highlights programs, coaches, and registration details while ensuring fast performance and excellent Google visibility through optimised meta tags and structured data.
